Professional Summary

Dynamic and enthusiastic **Full Stack Developer** equipped with expertise in the technologies, gained through hands-on projects. Passionate about leveraging technology for positive change and eager to apply skills to software development projects, aiming to contribute to innovative projects with a meaningful impact while continuing personal and professional growth.

Education

Centre for Development of Advanced Computing (CDAC)   Hyderabad, Telangana
Post Graduate Diploma in Advanced Computing (PG-DAC)   *2023 – 2024*
- Cumulative Percentage: **64.5%**

G H Raisoni College of Engineering & Management   Pune, Maharashtra
B.Tech in Electronics & Telecommunication Engineering   *2019 – 2023*
- Cumulative Percentage: **72.5%**

Bhaskaracharya Jr. College   Aurangabad, Maharashtra
Class XII, Maharashtra State Board   *2018 – 2019*
- Cumulative Percentage: **70.3%**

Pravara Public School   Pravaranagar, Maharashtra
Class X, Maharashtra State Board   *2016 – 2017*
- Cumulative Percentage: **66.6%**

Technical Skills

- **Languages:** Java, JavaScript, SQL, HTML5, CSS3, C#, C++

- **Frameworks & Technologies:** React.js, Redux, Node.js, Spring Boot, Spring MVC, Hibernate, ASP.NET Core, ASP.NET MVC.

- **Databases:** MySQL, PostgreSQL, MongoDB

- **Tools:** Jenkins, Jira, Docker, Kubernetes, IBM Rational DOORS, Git, Agile Methodologies (Scrum, Kanban).

Projects

React Chat Web Application
- This project is a feature-rich communication platform designed for instant and dynamic conversations, built using the MERN stack (MongoDB, Express.js, React, Node.js) along with Socket.IO for real-time communication, and incorporating JWT for secure authentication.
- Users can securely register, log in, and engage in one-on-one or group chats. The platform also offers search functionality by name and email for quick connections.

Hospital Management System
- Developed a hospital management system using Java, MySQL, and JDBC to manage patient, doctor, and appointment records.
- Implemented Object-Oriented Programming principles to enhance code modularity and maintainability.Built CRUD operations for data management and designed user interfaces with IntelliJ IDEA.

Internship

Intern   January 2023 – July 2023
Bharat Sanchar Nigam Limited (BSNL)   *Pimpri Chinchwad, Maharashtra*
- Assisted in network infrastructure maintenance and troubleshooting tasks.
- Conducted research on the latest telecommunications technologies.
- Supported the team in analyzing data to optimize network performance.
- Gained hands-on experience in telecommunications network management.
